# JOSEPHINE

Josephine invites you on a sleep adventure that combines beauty and modern comfort. While Base Coil Air Balance® spring technology pays respect to the robustness of the past, the modern touch of knitted fabric relieves the stress of the day. The detachable pad customizes your sleep experience at your choice.

Josephine promises a journey beyond time in your bedroom. It takes you on an adventure under the stars every night with the robust structure of Poket springs and the comforting touch of the extra comfort layer. Its hybrid structure blends modern technology with a natural touch, while its detachable topper customizes your sleep experience at your choice.

**GENERAL FEATURES:**

- Modern Design
- Robust Structure
- High Carbon Alloyed Steel Construction
- Electrostatic Painting in Special Oven Units
- Corrosion and Scratch Protection
- Safety Lock
- Large Interior Volume
- Robotic Vacuum Cleaner Applicable High Leg

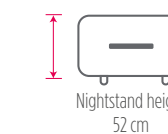

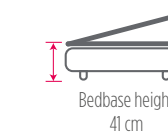

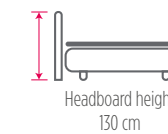

Base Coil Pro Balance® is a special spring technology that provides customized spinal support with pocket springs, each of which can move independently.

# OPHELIE

Ophelie is a wonder of comfort created using the purest essences of nature. Its natural Thermal fabric covers your body at night, protecting it from the cold and creating an ideal sleeping climate. Choosing Ophelie is to turn the night into the most enjoyed moment of the day.

Ophelie is a warm shelter against the cold of winter nights and a cool harbor in the heat of summer. The olive oil texture of the Thermal Comfort® fabric keeps your body warm while providing a dry and comfortable environment. The harmony of Base Coil Air Balance® and Hyper Foam in the mattress relieves you from the tiredness of the day with an extra layer of comfort.

# LUMIERE

Lumiere will be an essential part of your life like an old fellow. A sensitive friend who respects not only you but also nature, who avoids disturbing others while providing your comfort.

Each spring of the Lumiere mattress is located in its own cloth pocket. This allows the springs to move independently according to different pressure points of the body, thus providing better body support. This guarantees that when one person moves, the other is not disturbed. The Tencel® fabric, produced from sustainable sources, gives you the peace of mind of sleeping on an eco-friendly mattress.

# MELODIE

Melodie brings the peaceful concert of the night to your bedroom. Its special fabric reducing stress, relieves all the tension of the day with a gentle touch. While offering the purest touch to your skin with its certified natural materials, your body feels lighter as if floating on clouds with the extra softness of Hyper foam.

Melodie turns every night into a relaxation ritual with its special fabric that removes electrical tension from the body. The robust structure of Base Coil Air Balance® technology offers the perfect harmony of health and comfort. With the extra softness of Hyper foam, your body feels lighter as if floating on clouds. Melodie allows you to sail safely on the sea of your sleep, turning every night into a stress-free, peaceful journey.

# LOUIS

Louis' intelligence and sensitivity makes you feel not alone in the silence of the night by listening to your body's whispers. Just one night on a Louis bed will be enough to take your comfortable sleep experience to another level.

Louis is a mattress that notices and reacts sensitively to every fluctuation of your body temperature. The Thermal Comfort® fabric synchronizes your body temperature, senses your temperature changes and opens its pores to take moisture away. While you enjoy your dreams in a comfortable sleep, Louis takes care of your comfort with great sensitivity throughout the night.
